2nd TRANSNATIONAL PROJECT MEETING

The city of Prague witnessed the second Transnational Meeting of our Erasmus project, held with great enthusiasm and collaborative spirit, from January 13 to 15, 2023.

With the participation of two members from the different partners, they gathered in the Czech capital to discuss and promote international cooperation, as well as to strengthen ties between the institutions.

Various sessions, workshops and activities took place at the event focused on the exchange of ideas and experiences related to project management.

The Erasmus Transnational Meeting in Prague left a lasting impression on all participants, who expressed their enthusiasm to implement the ideas and connections established during the event in their respective institutions. The commitment to academic excellence and international collaboration remains a priority for the European educational community, and events like this demonstrate the positive impact that Erasmus has on training the next generation of leaders and professionals.
