LEARNING TEACHING TRAINING ACTIVITIES IN SREDNJA ŠKOLA PRELOG CROATIA

18. 09. 2023 – 22. 09. 2023

LTTA IN Prelog /CROATIA

The meeting started on Monday in Srednja škola Prelog with a presentation about the Croatian school system, the project, the project's platform and presentation of all schools. On Tuesday all participants visited the Technology institute in Čakovec (<https://ticm.hr/>), where we had a presentation about new technologies and entrepreneurship in the future. Students and teachers also visited the Metal center in Čakovec (<https://metalskajezgra.hr/en/homepage/>) with 3D printers for different types of metal. In the afternoon participants visited the museum "Treasury of Međimurje" in Čakovec and wine region Mađerkin breg.

On Wednesday students and teachers spent the day in school attending workshops regarding the project topics from the platform. Students got to know more about AI and the usage in everyday life. In the afternoon students went on a field trip on bicycles taking examples of GLOBE measurements on the river Drava.

On Thursday students went to Plitvice lakes. Because of the heavy rain the sightseeing to Zagreb on the way back home was cancelled.
